DoB : 24 January 1983

- **Skills**

CADs, Solidworks, SpaceClaim, MATLAB, Python, LabVIEW, DSH^{plus}, Good communication skills in written and speaking, Motivated and Team adaptive, Creative and skillful, Problem solving skills, Metal Crafts

- **Experiences**

Project Engineer

July 2022 - March 2024

Solar Energy System Pvt. Ltd., Kathmandu

Consulting with clients about their hot water demand and proposing and designing suitable hot water systems as required, Preparing proposal quotation and drawing for the suggested designs, Heat pump installation, maintenance and repair.

Facility Management

*Oct. 2020 - Jan. 2022 &
Nov 2016 -April 2018*

GM Immobilienkonzept, Germany

Inspecting, Preventing and Predicting possible failures
Planning, organizing and executing Maintenance schedule for : Heating and Ventilation, Sanitary , Fire Safety Units, Sprinkle Units in commercial buildings.

CAD Engineer

May 2018- March 2020

Form & Function, Germany

3D & 2D sketching in SpaceClaim / consulting with clients
Quality control of the parts/ products and process to dispatch

Student Job/ HIWI

Sept 2009 - Sept 2010

IFAS RWTH Aachen University, Germany

CFDs, Solidworks, Assembling and disassembling the Experimental Setup.

Sales Executive

Aug 2007 - Dec 2007

Morang Auto Works, Kathmandu, Nepal

Inventory Control, Developing Purchase Orders

Consultant Engineer

August 2005 - May 2007

PRDS Nepal, Kavre, Nepal

Counseling for Solar PV projects in rural areas in Nepal

- **Education**

MSc. Energy Systems

March 2008 - May 2016

Fachhochschule Aachen, Germany

Thesis: „Analysis on effects and limitations of cavitation in design and operation of Francis turbine“

Major : MATLAB & Simulation, Powerplant, Fuel Cells, Thermodynamic, Solar Energy etc.

B.E. in Mechanical Eng.

Aug 2001 - Sept 2005

Kathmandu University, Kavre, Nepal

Thesis: „Design and Construction of a Beam deflection testing apparatus“

Major : Renewable Energy, Hydraulic Machines, Advanced Mathematics, Thermodynamic, Business Management, Refrigeration and Air conditioning, Engg. Drawings

- **Internships**

Master Assignment

May- July 2014

E.ON, RWTH Aachen University, Germany

Topic: „User's behavior adaptive heating system“

Literature research on different types of Thermal comfort models.

Coding and Simulation of studied Thermal comfort models in Python.

Master Assignment

June 2009-Feb 2010

IFAS RWTH Aachen University, Germany

Topic: „Literature survey on ocean wave energy“

Literature research on different types of wave energy models.

Coding and Simulation of studied wave energy models in MATLAB.

Volunteer

July - Oktober 2006

Vertical Shaft Brick Kiln, Lalitpur, Nepal

Concept development for reuse of the heat loss during unloading of the bricks from the furnace. Observing possible heat loss from the furnace and kiln. Design and construction of sheet metal canal to withdraw heat out of the furnace opening to the brick pre-drying section.
